Experience

- **Meta SWE 2** Bellevue, WA
Ads Infra: Event Aggregation and Anonymization Jun 2026 – Present
 - Building infrastructure for ads event aggregation and anonymization at scale, ensuring data privacy across Meta's advertising ecosystem.
- **Microsoft SWE 2** Redmond, WA
Azure Storage: DPU Migration Sep 2025 – Jun 2026
 - Managed node lifecycle, extent placement, and live connection migrations to DPU-accelerated hardware, improving AI-era data pipelines.
 - Developed storage and migration tooling in C/C++; leveraged AI agents (Claude, Copilot) for development and code review.
- **Google SWE** Seattle, WA
Google Cloud Monetizer Pipelines: Orchestration Jun 2022 – Jun 2025
 - Ensured correct customer billing by maintaining pipelines for discounts, fees, commitments, and account hierarchies. Developed in Java and SQL; on-call rotation.*Search Ads 360: Clickserver and Migrations*
 - Implemented data migrators for compatibility with new Search Ads 360 systems. Java and SQL; on-call twice per quarter.
- **Uber SWE Internship** Remote
Host Life-Cycle - Infra Foundations Jun 2021 – Aug 2021
 - Built host operator console commands for credential management and user authentication in Go.
- **GameCoder Studios Software Engineer** Remote
Infrastructure Team Jan 2021 – Jun 2021
 - Developed Jenkins CI pipelines for Mercurial projects; automated server backups and configured VPNs.
- **Facebook SWE Internship** Remote
News Feed Eng Ecosystem / Content Ranking Jun 2020 – Aug 2020
 - Deprecated old Feed Logger, saving 300TB/day in SQL storage and 5GB/s in transmission.
 - Built a unified C++ data parser with Hack/Python, improving control over News Feed ML pipelines.
- **Facebook Seattle SWE Internship** Seattle, WA
Real-Time Infrastructure: Discovery & Storage Team Jun 2019 – Aug 2019
 - Reduced replica retrieval latency with async C++ programming; improved reliability via automated repair calls.

Education

- **Instituto Tecnológico Superior Del Estado De Guanajuato** Guanajuato, Mexico
B.Sc. Computer Systems Engineering, GPA 90/100 Aug 2017 – Dec 2021

Awards

- **ACM ICPC** Mexico & Central America
2018 – 2019
 - Regional finals in 2018 and 2019 (Top 25).
 - 1st Place, "How to detect fake news" Talent Land Hackathon 2018. 1st Place, Global Talent Land Hackathon (301 teams) 2018.
- **Mexican Olympiad in Informatics (OMI)**
 - 3rd place gold medal (2013) and 8th place gold medal (2012).

Technical Skills

- **Languages:** C/C++ (6 yrs), Java (3 yrs), Python, C#, Go, SQL (3 yrs)
- **Technologies:** Jenkins, Source Control, Google Cloud, Azure, DPU/DPDK, AI agents: Claude, Copilot, Gemini
